Dear Professor Darji sir,

I am Dhrumil Parmar (U20EC160). I am pursuing a Bachelor of Technology in Electronics Engineering from Sardar Vallabhbhai national institute of Technology. I hope this letter finds you well. I am writing to express my gratitude for offering me the opportunity to pursue an internship under your esteemed guidance. I am delighted and honoured to accept the internship position and begin working alongside you.

I am excited about the internship on developing a Brushless DC (BLDC) motor driver. This topic aligns perfectly with my academic interests. Through this internship, I aim to gain in-depth knowledge and practical experience in designing and implementing BLDC motor control systems.

I am eager to delve into the complexities of BLDC motor driver development, including motor control algorithms, power electronics, embedded systems, and control theory. I am excited to work with you and the research team to understand the challenges associated with BLDC motor drivers and contribute to developing efficient and high-performance motor control solutions.

I want to express my sincere appreciation for the trust and confidence you have placed in me by offering me this internship. It is truly a privilege to have the opportunity to learn from someone as knowledgeable and accomplished as yourself. Your expertise and dedication in the field of Embedded System Design and VLSI Design have inspired me, and I am confident that this internship will be a transformative experience for my academic and professional development.

Once again, I want to express my sincere appreciation for accepting me as an intern under your guidance. I am truly honoured and excited to embark on this journey with you. Thank you for the trust and confidence you have shown in me. I eagerly await the start of the internship and the opportunity to contribute to the research work.

Thank you again for this incredible opportunity. I look forward to an enriching experience under your esteemed guidance.

Sincerely,

Dhrumil Parmar
